

OWEN'S TRAIN

at Kingsport Centennial Park

Thank you for your help with this effort!

Owen's Train will remind us all of the legacy of family and its lasting impact on the spirit of generosity and hope for our community. The young and young at heart that visit Centennial Park will be encouraged to participate in a scavenger hunt to find all of the cars in Owen's Train. While finding the train cars, they will learn about Kingsport's history, splash in the fountain and visit the Santa Train sculpture.

Checks should be made payable to: "Engage Kingsport ~ Owen's Train"

Signature: _____ Date: _____

Justin Steinmann and Amanda Dean have been involved in the planning of Kingsport's Centennial since formation of the Centennial Commission and the decision to build Kingsport Centennial Park. Friends and colleagues of the Steinmann family are coming together to commission four unique bronze sculptures of miniature train cars to be located throughout Centennial Park. Together the locomotive, two box cars and caboose will form Owen's Train; a lasting memorial to a wonderful family and their little boy described by his father as the "bravest and best of us."
